

Request for Proposal

New Hampshire Environmental Educators (www.nhee.org) invites website companies to provide proposals by July 31, 2024.

Statement of Need: The NHEE website needs to be a place where current members visit to learn about new EE resources, sign up for our Annual Conference and other workshops, and apply for our NHEE'd To Get Outside Grant. Visitors to our website should be able to understand who NHEE is and how to become involved. The NHEE website needs to be a dynamic storytelling platform that inspires donations.

NHEE Website Desires:

- Convert current website to an easy to use platform (ie. Wordpress) that will allow NHEE Administrator to update pages on a regular basis without oversight.
- Overall, better design and display of our most used webpages and resources.
- Work with NHEE Website Committee to identify important components of current website and redesign with updates identified by committee.
- Integrated event calendar.
- Integrated forms/survey tools (such as Google) for our NHEE'd To Get Outside Grant program.
- Integrated platform (such as Zeffy) to intake donations, membership fees, and workshop registrations.
- Other integrated resources identified by NHEE Website Committee, with your assistance.
- Mobile ready.
- Security: SSL certificate and HTTPS website address

NHEE Mission: New Hampshire Environmental Educators is a network of individuals and organizations working to inspire connection to our natural world by supporting high quality environmental education and advancing environmental literacy.

NHEE Vision: We envision a NH where all people value and feel connected to our natural spaces, are environmentally literate, and act as social and environmental stewards in their communities.

NHEE Values:

- **Professionalism:** modeling expertise and leadership by effective communication, sound judgement and high standards
- **Community, cooperation and support:** inviting all people to work in an atmosphere of inclusivity and accessibility to further common goals.
- **Stewardship and sustainability:** recognizing all people are connected to the natural world and have a responsibility to work for a healthy planet.
- **Environmental Education:** Providing meaningful, interactive, interdisciplinary, science and culturally based education encouraging a sense of place.

Please send proposals and costs, including fee structure outline (what's included, what's not included) by July 31, 2024 to: info@nhee.org
